***Application:***

*SMOG DOCTOR TL C6 0W20* is the advanced and fuel-saving oil produced from 100% synthetic base oil. A combination of specially selected bases with top quality performance additives guarantee incredibly easy engine start even at very low temperatures. Mid-SAPS engine oil designed for passenger car engines and light commercial vehicles, modern gasoline engines equipped with catalytic converters and turbocharged diesel engines with DPF, TWC system. It can be used in hybrid cars and cars equipped with smaller capacity engines. The oil maintains the ideal engine cleanliness and saves fuel. It contributes to reducing emissions of harmful compounds into the environment. Recommended for Euro 6 compliant vehicles.

***Specifications and Standards:***

viscosity grade SAE: 0W20

Quality class API: SP / ILSAC GF-6A

Quality class ACEA: C6

***Recommended to:*** MB 229.71; JAGUAR LAND ROVER STJLR.03-5006-16;  
Volvo VCC RBSO-2AE; BMW LL 17FE+

**Typical physico-chemical attributes**

<b>SMOG DOCTOR TL C6 0W20</b>	<b>Typical value</b>
Kinematic Viscosity Index at 100 °C, mm <sup>2</sup> /s	8,21
Viscosity Index	165
TBN (mg KOH/g)	7,2
HTHS(cP)@150°C	2,6
Pour Point, °C	-48
Flash Point, °C	214
